Personal "Family Office" Intelligence Protocol (‘QF-SOVEREIGN-ORACLE‘)

Classification: Sovereign Internal ? Self-Only Household Capital & Research Protocol
Legal Surface: ‘Zero External Clients / Zero Investment Advisory / 100% Personal & Household Use Only‘
Governing Financial Invariant: $R_{\text{verified liquid}} \ge 6 \times (O_{\text{household}} + O_{\text{operating}})$

---

1. Purpose: Peaceful Wealth Without Stepping on Any Toes

This protocol governs how the QuantumFlex Research Dossier Engine (‘scripts/generate_research_dossier.py‘) is used **exclusively for the Operator and household**:

- **Zero Clients, Zero Sales, Zero Corporate Filings:** You never sell financial advice, never manage outside money, and never take on client deadlines.
- **100% Airgapped Local Intelligence:** All analysis of public SEC filings (‘10-K‘, ‘10-Q‘, ‘8-K‘), municipal property/zoning records, macroeconomic data, and scientific literature runs locally on ‘127.0.0.1:11434‘ at ‘$0.00‘ cloud spend.

---

2. Three-Bucket Sovereign Capital Architecture

Bucket	Name	Governing Rule	Permitted Instruments
Bucket 1	**The Iron Reserve ($R \ge 6O$)**	Untouchable household peace fund covering $\ge 6\text{ months}$ of all household + operating obligations. Reconciled every $\le 30\text{ days}$.	FDIC-insured liquid cash, short-term US Treasury Bills (‘SGOV‘ / ‘T-Bills‘). **Never used for speculation.**
Bucket 2	**Sovereign Bounties & Grants**	Zero-client inflows from verified bug bounties (Immunefi/Code4rena) and open-source grants (NLnet).	‘100%‘ of net proceeds after tax reserve route to Bucket 1 until $R \ge 6O$; surplus routes to Bucket 3.
Bucket 3	**Long-Term Compounding & Freedom**	Funded strictly from surplus above $6O$ ($R - \Delta \ge 6O$). Funds long-term investments, land/cabin retreats, and scientific exploration.	Broad low-cost index assets, Treasury ladders, and deeply researched asymmetric opportunities verified by Athena dossiers.

---

3. Weekly Sovereign Operating Rhythm & ‘QF-M5‘ Safeguards

1. **Maximum Sustainable Cadence (‘QF-OPS-01‘):**
- $\le 6\text{ hours/day}$ of focused deep work in $\le 90\text{-minute}$ single-object blocks; $\ge 8\text{ hours}$ uninterrupted rest.
2. **Physical & Logical Separation of Household Financial Records (‘QF-PRIVACY-01‘):**
- Personal household financial records (‘household_financial‘ / ‘sovereign_internal‘) are kept physically and logically isolated from all public research, bounty, and grant corpora.
3. **Mandatory ‘QF-M5‘ Operational Safeguards:**
- **Safeguard A (Tax & Legal Compliance):** Individual 1099/grant tax, reporting, and program-eligibility obligations are strictly maintained (‘individual_tax_and_program_compliance_verified == True‘).

- **Safeguard B (‘QF-A5‘ Signing Boundary):** Clearing personal hard stops does not auto-sign artifacts; ‘signed: true‘ requires an explicit ‘QF-A5‘ signing ceremony (‘qf_a5_signing_ceremony_completed == True‘).
- **Safeguard C (Pending Inflows Excluded):** Unsettled bug bounties (‘pending_bounties_usd‘) and pending grant milestones (‘pending_grants_usd‘) never count toward $R_{\text{verified liquid}}$.

4. **Fail-Closed Peace Maxim:**

- *No bounty is worth compromising the machine. No grant is worth compromising the mission. No financial opportunity is worth sacrificing the peace the system exists to create.*
